Professional summary

Information Science and Engineering student with strong foundations in programming, data structures, algorithms, operating systems, and computer networks. Proficient in Python, Java and C. Passionate about software development and problem-solving. Seeking an entry-level Software Engineer role to apply technical skills and grow in a professional environment.

Education

Bachelor of Engineering (BE) – Information Science and Engineering
Sai Vidya Institute of Technology, Rajanukunte, Bangalore – 560064
CGPA: 7.3 (upto 6th sem) **Sep 2023 – Sep 2027**

Pre - University College (Science – PCMB)
DHANWANTHRI PU COLLEGE, Bengaluru-560057
Percentage: 75.6 **Jun 2021 – May 2023**

Technical Skills

Programming Languages: PYTHON, JAVA, C, SQL.

Core Concepts:

- Prompt Engineering, AI/ML, Data Structures and Algorithms , Object-Oriented Programming (OOPs), Operating System, Database Management System(DBMS).

Java:

- OOP concepts: encapsulation, inheritance, polymorphism, abstraction
- Familiar with classes, interfaces, and packages

Projects

Offline Cloud Data Retrieval interface *(Mini Project, 5th Semester)*

- Built a web-based file management system that runs entirely offline on a local machine, functioning as a self-hosted personal cloud storage solution.
- Developed the backend using Python Flask, with a browser-based frontend enabling file uploads, descriptions, and search by filename or description.
- Designed a searchable local database to track file metadata including size, upload date, and description for quick retrieval.

Trading Bot With Machine Learning *(on going)*

- Developed an AI-powered trading bot that analyzes historical and real-time stock market data to generate BUY, SELL, and HOLD signals.
- Implemented data preprocessing and feature engineering using Python, Pandas, and NumPy to prepare financial datasets.
- Trained and evaluated Machine Learning models such as Random Forest to identify market patterns and predict trading signals

Certifications

- The Bits and Bytes of Computer Networking (Nov 2025)
- Artificial Intelligence Fundamentals – IBM Skills Build (Aug 2025)
- Building RAG Apps Using MongoDB (May 2026)

Interests

Software Development, Competitive Programming, Innovative thinking

Languages

English, Kannada.
